

Advanced Digital Battery Tester

PL430/460™

1. Model

PL-430 & PL-460

2. Testing scope

12V lead-acid battery and 24V charging system.

3. The multiple rating systems

PL430	-----	PL460
Input Rating	Rating system	Input Rating
200-- 850	CCA	100--1700
110-- 480	DIN	100--1200
180-- 780	EN	100--1700
120-- 550	IEC	100--1200
200-- 850	SAE	100--1700
30A19--180G51	JIS	26A17--245H52
Detection of battery	-----	Detection of battery
Detection of charging system	-----	Detection of charging system
-----	-----	Detection of starting system

4. Tester power

Utilizing the power of the detected battery (not less than 2V)

5. Operate language

English and Chinese

6. Temperature compensate

Temperature compensate in the detecting process automatically.

7. Operate temperature

0°F~120°F

8. Test clips

Kelvin clips

9. Case Material

ABS plastic

10. Size:

230mm * 105mm * 70mm

11. weight

520 g
